FOR WHAT IT'S WORTH

From the Prez

Here we are coming up on the last meeting before the Fun Fly in on September 12. I want to thank everyone who has already stepped forward and signed up or volunteered to help with the event. We still have a few things to work out, but the planning and preparation is going well.

Jokes for the Month

If 4 out of 5 people SUFFER from diarrhea...does that mean that one enjoys it?

If people from Poland are called Poles, then why aren't people from Holland called Holes?

If a pig loses its voice, is it disgruntled?

Why do croutons come in airtight packages? Aren't they just stale bread to begin with?

Why isn't the number 11 pronounced onety-one?

If lawyers are disbarred and clergymen defrocked, then doesn't it follow that electricians can be delighted, musicians denoted, cowboys deranged, models deposed, tree surgeons debarked, and dry cleaners depressed?

If Fed Ex and UPS were to merge, would they call it Fed UP?

Do Lipton Tea employees take coffee breaks?

What hair color do they put on the driver's licenses of bald men?

I was thinking about how people seem to read the Bible a whole lot more as they get older; then it dawned on me..they're cramming for their final exam.

I thought about how mothers feed their babies with tiny little spoons and forks, so I wondered what do Chinese mothers use. Toothpicks

Why do they put pictures of criminals up in the Post Office? What are we supposed to do, write to them? Why don't they just put their pictures on the postage stamps so the mailmen can look for them while they deliver the mail?

If it's true that we are here to help others, then what exactly are the others here for

You never really learn to swear until you learn to drive.

Ever wonder what the speed of lightning would be if it didn't zigzag?

If a cow laughed, would milk come out of her nose?

Whatever happened to Preparations A through G?

FOR SALE

For Sale:

Navigation and landing lights for model airplanes and helicopters. 5mm, LED light set will include a Green and Red wing tip markers, Red and White strobe lights for tail and tail areas, one White landing light (100,000 mcd). All lights operate on 4.8 DC and draw approx 500Mah. Lights are pre-wired with 48 inch leads. Custom lengths are available upon request.

These lights can generate light as bright as a 50w light bulb and have a life length of aprox 100,000 hrs. They are visible in daylight at aprox 150 ft. [Navigation led demo](#)

Servo switch that can operate on any unused channel and can be turned on and off by the transmitter. The Servo switch is a solid-state device and can handle current up to 6A. [RC servo switch demo](#)
