## FOR WHAT IT'S WORTH

### THE TRICK IS TO FIND THE MAN IN THE COFFEE BEANS:

This is bizarre - after you find the guy - it's so obvious. Once you find him - it's embarrassing, and you think,

'Why didn't I see him immediately?'

Doctors have concluded that if you find the man in the coffee beans in 3 seconds, the right half of your brain is better developed than most people. If you find the man between 3 seconds and 1 minute, the right half of the brain is developed normally. If you find the man between 1 minute and 3 minutes, then the right half of your brain is functioning slowly and you need to eat more protein. If you have not found the man after 3 minutes, the advice is to look for more of this type of exercise to make that part of the brain stronger!!!

And, yes, the man is really there!!

After you find the man in the beans forward the e-mail to your brainy friends.

	<b>From the Prez</b>	
	<p>I was pleased that we set the dates for our two events at our last meeting. For those that missed the meeting the dates are May 15 for the 12<sup>th</sup> Annual Swap Meet and September 11 for the 19<sup>th</sup> Annual Fun Fly. We try to keep these dates the same weekends each year. I made some flyers for the events and will email to all members so you may review them or distribute if you wish.</p>	<p>I know these events seem like a long way off but we are already looking into raffle items for the fun fly and these flyers help promote the event and validate the event for vendors and organizations that might choose to contribute. We had very good results with this approach last year and hope it will do well this year.</p> <p>In the mean time we still have winter to contend with and all of it's limitations to the our flying fun. I hope you can get an opportunity to do some flying on some of our better winter days.</p>
	<b>Jokes for the Month</b>	
	<p>A man could not stop his dog barking, so he took it along to the vet. The vet gave the dog a gentle kick up the backside - and it shut up. Two days later the dog started barking again. He took it back to the vet who dealt out the same treatment and it shut up. After a few days it started barking again.</p> <p>The man thought, "I'm not paying the vet another \$10 just to have him kick my dog to make it stop barking." So he tried kicking the dog himself, but it only made the dog bark more than ever. So he gave up and took it back to the vet who kicked the dog and it shut up.</p> <p>"How come my dog shuts up when you kick it but not when I kick it?" Asked the man. The vet replied by taking off his shoe and showing it to him, the label inside read: "Hush Puppies".</p>	<p><b>How to impress a woman</b></p> <p>Wine her, Dine her, Call her, Hug her, Hold her, Surprise her, Compliment her, Smile at her, Laugh with her, Cry with her, Cuddle with her, Shop with her, Give her jewelry, Buy her flowers, Hold her hand, Write love letters to her, Go the end of the earth and back again for her.</p> <p><b>How to impress a man</b></p> <p>Show up naked. Bring beer.</p>
